Monika Patel

I'm a self-motivated Full Stack Developer who loves to learn and create. I have 3+ years of experience and feel that I would be a great asset to any development or design team. I strive to deliver quality work through focused research and endeavor to be at the edge of emerging technology.

Professional Experience

Feb 2015 - Present

Solution Dynamics – DOT Net Developer

Working within an Agile development environment as a .Net Developer for the web and windows applications development and maintenance. Role established UI and component guidelines to ensure the clear direction & alignment of a consistent UI for the end users. Worked closely with other dev-team leaders and sales to bring a consistent vision for the applications.

01. Produce and maintain data digitalizing fully automated software mainly for the scanning bureau.
02. Manage UI guidelines within the Application Development team.
03. Design eye-catching and fully functional visual reports from the huge database.
04. Responsible for designing and testing HTML Email templates for all the SDL clients.

Aug - Oct 2014
